

In the Specification:

Please insert at Page 1, line 2, the following paragraph:

RELATED APPLICATIONS

This application is a National Phase Application of PCT Patent Application No. PCT/IL2004/001047 having International Filing Date of November 15, 2004, which claims the benefit of U.S. Provisional Patent Application No. 60/526,600 filed on December 4, 2003, and U.S. Provisional Patent Application No. 60/520,319 filed on November 17, 2003. The contents of the above Applications are all incorporated herein by reference.

Please replace the paragraph beginning at page 10, line 25, and ending at page 11, line 2, with the following rewritten paragraph:

-- According to a further feature of the present invention the source is found in or at a location such as a clinic, dental clinic, hospital, surgical ward, mass grave, morgue, battlefields, abattoir, industrial plant, sewer, earthquake locus, collapsed building, sewage processing plant, tanning plant, animal handling area, barn, cancer ward, changing room, clarifier, coal mine, composting site, crematorium, ~~erummy motel~~, diaper pail, dormitory, feed lot, garbage dump, garbage processing plant, kennel, landfill, laundry room, leather processing plant, locker room, lumber mill, meat processing plant, milking parlor, mine, ~~mother in law~~, nursing home, old age home, outhouse, paper mill, photographic products manufacturing plant, poultry processing plant, prison, rendering plant, settling basin, sewage dewatering system, sludge station and sport center. --

Please replace the paragraph beginning at page 15, line 5, and ending at page 15, line 30, with the following rewritten paragraph:

-- The composition of the present invention is a novel mixture of known scents and/or fragrances and/or compounds and/or plant extracts characterized in that

the combination is effective in altering the perception of at least one malodor by affecting at least one olfactory receptor, and as such are useful in implementing the method of the present invention. Embodiments of the composition are virtually scentless yet even such embodiments are effective in ameliorating the negative effect of malodors and stench, especially those associated with decomposing flesh, burned flesh, abscesses, urine, feces odors, ammonia-like odors, and amine and indole compounds produced during the putrefaction of flesh but also malodors characteristic of locations such as clinics, dental clinics, hospitals, surgical wards, mass graves, morgues, battlefields, abattoirs, industrial plants, sewers, earthquake loci, collapsed buildings, sewage processing plants, tanning plants, animal handling areas, barns, cancer wards, changing rooms, clarifiers, coal mines, composting sites, crematoria, ~~eru~~ ~~mmy~~ motels, diaper pails, dormitories, feed lots, garbage dumps, garbage processing plants, kennels, landfills, laundry rooms, leather processing plant, locker rooms, lumber mills meat processing plants, milking parlors, mines, mothers-in-law, nursing homes, old age homes, outhouses, paper mills, photographic products manufacturing plant, poultry processing plants, prisons, rendering plants, settling basins, sewage dewatering systems, sludge stations and sport centra and/or malodors characteristic of agriculture, amines, body odor, cigarette smoke, compost, dairy industry, gangrenous wounds, garbage, human feet, diapers, dirty laundry, halitosis, bad breath, lesions, livestock, manure, mercaptans, sewage, sludge, smoke, swine, tobacco, trash compactors, tumors, smoke, stale sweat, ulcers, unwashed humans, vomit, waste water, rotting proteins, decomposing proteins, burned proteins, viscera, amines produced during the putrefaction of proteins and indoles produced during the putrefaction of proteins and combinations thereof. --

Please replace the paragraph beginning at page 51, line 7, and ending at page 51, line 17, with the following rewritten paragraph:

-- Locations where such malodors are found include but are not limited to clinics, dental clinics, hospitals, surgical wards, mass graves, morgues, battlefields, abattoirs, industrial plants, sewers, earthquake loci, collapsed buildings, sewage processing plants, tanning plants, animal handling areas, barns, cancer wards,

changing rooms, clarifiers, coal mines, composting sites, crematoria, erummy motels, diaper pails, dormitories, feed lots, garbage dumps, garbage processing plants, kennels, landfills, laundry rooms, leather processing plants, locker rooms, lumber mills, meat processing plants, milking parlors, mines, mothers in law, nursing homes, old age homes, outhouses, paper mills, photographic products manufacturing plants, poultry processing plants, prisons, rendering plants, settling basins, sewage dewatering systems, sludge stations and sport centra. --
